

PAGODELVICARIO

Pago wines have to be made exclusively with grapes from a single vineyard and both the winery and vineyard have to be in the same location. DOP Pago del Vicario was officially recognized by the European Union. It means they hold their own DO. Pago del Vicario is a unique vineyard located in an area with a special terroir and a microclimate, due to its proximity to the Guadiana River. It is located in the Castilla-La Mancha region.
